#### INTRODUCTION TO THE 1983 VOTERS PAMPHLET

"If the people don't have enough information to wield power correctly, don't take away the power, give them the information."

Thomas Jefferson

This quote effectively summarizes the beliefs of Washington's early political leaders, and continues to reflect the views of elected officials in this state as we approach our state Centennial in 1989.

Washington consistently has one of the highest voter turnouts in the nation. That high turnout is a direct result of an informed electorate.

Washington began producing a voters and candidates pamphlet in 1914, one of the first in the nation. Today, our voters and candidates pamphlet continues to be a trend-setter among the states in the field of voter information. Soon, many communities will begin producing a voters pamphlet for local issues and candidates. The availability of the local voters pamphlet is another effective stride to open up even more information to the electorate.

This voters pamphlet is sent to you and all other residents of Washington to assist you in making your decisions on the critical issues facing all of us on Election Day, November 8th.

## SENATE JOINT RESOLUTION 103

PROPOSED CONSTITUTIONAL AMENDMENT

NOTE: The ballot title and explanatory statement were written by the Attorney General as required by state law. The complete text of Senate Joint Resolution 103 begins on page 10.

Vote cast by the members of the 1983 Legislature on final passage: HOUSE: Yeas, 85; Nays, 10; Absent or not voting, 3. SENATE: Yeas, 42; Nays, 4; Absent or not voting, 3.

#### Official Ballot Title:

Shall a commission be appointed by legislative leaders to redistrict legislative and congressional districts each decade based on equal population?

#### The law as it now exists:

The State of Washington is divided into congressional and legislative districts for the purpose of electing members of the federal Congress and the state legislature. Under the "one-man-one-vote" rule, those legislative and congressional districts are required to be basically equal in population as determined by the last preceding federal census.

Under existing state law the function of establishing the boundaries of legislative and congressional districts is vested in the state legislature. If the legislature fails to act in a constitutionally valid manner, the federal court may take over and perform the function as occurred in this state in 1972.

## The effect of SJR 103, if approved into law:

This proposed Constitutional amendment would provide for the appointment of a redistricting commission after each decennial federal census. The commission would be composed of five members, four of whom would be appointed by the legislative leaders of the two largest political parties in each house of the state legislature. Those four, in turn, would then select the fifth member as a nonvoting chairperson. If appointments are not made as required, then the State Supreme Court is directed to make the appointments.

The commission would be responsible, on the basis of population determined by the particular census, for the adoption of revised congressional and legislative redistricting plans. In addition to meeting the standard of population equality, each district established by the commission would be required to consist of contiguous territory, be compact and convenient, be separated from adjoining districts by natural geographical barriers, artificial barriers, or political subdivision boundaries to the extent reasonable. The commission's plan must provide for the number of legislative districts established by the legislature. Further, the plan is to be drawn so as not to purposely favor or discriminate against any political party or group.

The legislature could amend such redistricting plans, but only by a two-thirds vote of the members of the legislature. Any such amendment would also have to be passed by both houses no later than the end of the thirtieth day of the first session convened after the commission has submitted its plan to the legislature.

#### Statement for

Redistricting of congressional and legislative districts helps to ensure that each citizen is adequately represented in Congress and Olympia. Legislative efforts at redistricting have inevitably turned into a time consuming and highly partisan process and frequently have resulted in a redistricting plan that fails to meet constitutional standards. SSJR 103 avoids these difficulties as the Legislature appoints four Washington citizens as commission members who are given the power to independently appoint a fifth member and independently redraw the districts. The Legislature retains limited authority to fine-tune the commission's redistricting plan.

The redistricting process envisioned by SSJR 103 will work. In 1983, after the federal courts declared the Legislature's latest effort at congressional redistricting unconstitutional, a temporary redistricting commission was created to draw congressional district boundaries. That commission performed its task well. Operating under guidelines which were basically the same as those in SSJR 103, including procedures for selecting commission members, the temporary commission produced a plan which is fair, recognizes traditional communities of interest, and is constitutional. Passage of SSJR 103 will ensure that future redistricting efforts will be carried out in the same fair and independent fashion, and that the Legislature will not grind to a halt as members pursue their concern about districts suited to their ambitions.

#### Rebuttal of Statement against

To the contrary, fears of an unfair and unworkable redistricting plan are well-founded in Washington. Since 1889, the Legislature has accomplished redistricting only four times.

In 1972, after the Legislature failed to adopt the redistricting plan, a federal court ordered a master's redistricting plan into effect. The work of the temporary commission in 1983 speaks very well for the future of a permanent, independent commission.

#### Statement against

#### COMMISSIONS DON'T GUARANTEE IMPARTIALITY

The strongest argument against entrusting reapportionment to an appointed commission is that commissions are not responsible to the people. The framers of our Constitution chose wisely when they delegated the job to the elected representatives of the people.

#### LEGISLATURES HAVE BETTER RECORD

The 1981 Legislature did an equitable job of reapportionment. The court accepted the plan and the 1982 election proves the point. No wild swing took place. There is no such thing as a "non-partisan" reapportionment. Under SSJR 103, the commission would be composed of five members. Two would be Republican and two would be Democrat. These four would supposedly pick a "non-partisan" person to be the non-voting chairman. Can you imagine serving on such a commission? Every commission, in other states, has experienced partisan discord.

In the 70's, forty State Legislatures had the responsibility for redistricting. In eleven of the forty, the courts stepped in and did the job, or 28%. One Legislature did the job with a back-up board. The remaining twenty-eight State Legislatures drew acceptable plans – 70%. Of the remaining ten states, who had commissions, five ended in court, a 50% failure rate.

#### FEARS UNFOUNDED

The fears of an unfair redistricting are unfounded in Washington. This is a state that has a great populist tradition. Referendum and initiative were adopted early making machine politics almost impossible. Blanket primaries, precinct caucuses, and the easy movement between parties create an open style

in our politics. These factors negate the claim of an unfair redistricting by the Legislature.

#### Rebuttal of Statement for

The court threw out the Legislature's congressional redistricting because of a 1.35% deviation, not because of the Everett issue. The attorney general failed to argue the deviation issue and show that it was logical and necessary. Other states have been granted 3.5% deviation. No, SSJR 103 will not work as well; it gives the Party King makers total power, either the fifth man will side with one of the parties or the other.

### SENATE JOINT RESOLUTION 105

PROPOSED CONSTITUTIONAL AMENDMENT

NOTE: The ballot title and explanatory statement were written by the Attorney General as required by state law. The complete text of Senate Joint Resolution 105 begins on page 10.

Vote cast by the members of the 1983 Legislature on final passage: HOUSE: Yeas, 88; Nays, 0; Absent or not voting, 10.

SENATE: Yeas, 45; Nays, 1; Absent or not voting, 3.

#### Official Ballot Title:

Shall the state constitution be amended to increase from thirty to fifty-five years the maximum term for state harbor leases?

#### The law as it now exists:

The Washington State Constitution provides for the establishment of state-owned harbor areas which are located in navigable waters bordering incorporated cities. These harbor areas are reserved for landings, wharves, streets and

other conveniences of commerce and navigation. The legislature, pursuant to the Constitution, has established general laws for the leasing of these areas. The Constitution now limits the maximum term of such leases to thirty years, while existing law permits leases of state-owned tidelands and shorelands for up to fifty-five years.

## The effect of SJR 105, if approved into law:

This proposed amendment of the Washington State Constitution would increase from thirty to fifty-five years the maximum allowable term for leases of state harbor areas. This change would make the maximum allowable term for harbor area leases consistent with the present fifty-five year maximum for state-owned tide and shorelands.

#### Statement for

This measure passed the Legislature by 133 yes votes, 1 no vote.

In 1889, the year the State Constitution was adopted, a 30-year lease on harbor areas was adequate. Now, 94 years later, longer term financing is often necessary to fulfill the dreams of the Constitution drafters. The adoption of SJR 105 by the people would permit the legislature to extend the maximum term for harbor area leases to 55 years, thus allowing sufficient time to amortize the cost of improvements.

It is clear that responsible people throughout the state feel the public can best be served by providing greater harbor area leasing flexibility. If Washington is to maintain its rightful place in the world trade market, it is necessary that the voters approve SJR 105.

World trade awaits us. This added leasing tool will help make it happen.

#### Rebuttal of Statement against

SJR 105 will NOT encourage condominiums, hotels or other non-navigational use of harbors. Washington Constitution restricts use of harbor areas to navigation and commerce. SJR 105 will not change that. It simply provides longer lease terms so facilities for constitutional trade/navigation uses can be financed.

SJR 105 encourages navigation and commerce facilities in harbor areas rather than fragile tidelands where 55 year financing is currently allowed. SJR 105 is a good measure.

#### Voters' Pamphlet Statement Prepared by:

GEORGE FLEMING, State Senator; PATRICK R. McMULLEN, State Representative.

Advisory Committee; LEWIS R. HOLCOMB, Executive Director, Washington Public Ports Association; RICHARD D. FORD, Executive Director, Port of Seattle; BILL CROAKE, Executive Secretary, Seattle Building and Construction Trades.

#### Statement against

#### SSIR 105 IS UNWISE AND UNNECESSARY

SSJR 105 threatens to displace maritime businesses in harbor areas. Longer leases work toward elimination of maritime and fishing industries in harbor areas by decreasing the certainty of availability of these areas.

Developers of hotels, condominiums, trade centers and office buildings want fifty-five year leases to finance construction over water. This is presently unconstitutional between the line of ordinary high water and the outer harbor line

Maritime businesses have no need for fifty-five year leases in harbor areas. They lease constitutionally up to thirty years and obtain renewals indefinitely. They have never been denied financing because of thirty year leases.

#### CONSTITUTIONAL PROTECTION CIRCUMVENTED

To circumvent the Constitution, early legislatures, without a vote of the people, withdrew from the harbor area those portions nearest land, terming them "tidelands" so they could be sold and used for other than navigation and commerce. Unsold state-owned "tidelands" were given fifty-five year leases. Extending fifty-five year leases to remaining harbor areas promotes additional encroachment of non-navigation uses, further decreasing access to land by maritime businesses.

The Constitution, Article XV, Section 1, referring to harbors in front of cities, states in part: ". . . nor shall any of the area lying between any harbor line and the line of ordinary high water . . . be sold or granted by the state, nor its right to control the same be relinquished, but such area shall be forever reserved for landings, wharves, streets, and other conveniences of navigation and commerce."

Non-navigation uses are attempting to take over the harbor areas.

Vote No on SSIR 105.

#### Rebuttal of Statement for

Proponents' arguments are misleading and non-factual. The Legislature voted simply to place this issue on the ballot, not as approval of the amendment.

The Constitution drafters responsibly reserved harbor areas for navigation and commerce to promote world trade.

Sufficient time to amortize costs of improvements for navigation uses is already in the Constitution. Only hotels, office buildings and other non-navigation uses require fifty-five year leases.

This is the developers' dream - not the Constitution drafters' dream.

### SENATE JOINT **RESOLUTION 112**

PROPOSED CONSTITUTIONAL AMENDMENT

NOTE: The ballot title and explanatory statement were written by the Attorney General as required by state law. The complete text of Senate Joint Resolution 112 begins on page 11.

Vote cast by the members of the 1983 Legislature on final passage: HOUSE: Yeas, 88; Nays, 8; Absent or not voting, 2. SENATE: Yeas, 34; Nays, 14; Absent or not voting, 1.

#### Official Ballot Title:

Shall local governments marketing energy be permitted to use funds or credit to finance energy conservation by individuals and corporations?

#### The law as it now exists:

A 1979 amendment to the state Constitution allows until January 1, 1990, counties, cities, towns and other municipal corporations which engage in the sale or distribution of energy to use public monies or credit derived from operating revenues to assist owners of residential structures in financing the acquisition and installation of materials and equipment for conservation or more effective use of energy. That

Constitutional amendment requires a charge-back for the extension of public monies or credit and further provides for a lien against the residential structure or equipment benefited.

#### The effect of SJR 112, if approved into law:

This Constitutional amendment, if approved, would expand the constitutional eligibility for energy conservation public financing beyond the current restriction (only to owners of residential structures) to any individual, association or corporation using the funds for energy conservation purposes.

This measure would also constitutionally permit local governments marketing energy to issue debt instruments repayable from revenues to finance these energy conservation

The amendment also removes references in the current Constitution to "more effective use of energy", leaving "conserving energy" as the sole standard of eligibility. It further removes the constitutional requirement that a lien or other

adequate security be provided for the financing of energy conservation purposes for residential structures.

The expiration date of the constitutional provision authorizing this program would be changed from 1990 to 2005.

#### Statement for

SJR 112 encourages energy conservation, which is the most cost-effective and low-risk energy resource available. Electric utilities have found conservation investments to be more cost-effective than investing in new power plants. All ratepayers benefit when utilities purchase the least expensive resource to provide their electricity. SJR 112 extends the ability of public utilities to encourage conservation by authorizing them to offer financing programs to tenants and businesses. This benefits all ratepayers.

Currently publicly owned utilities can make loans only to the owners of residential structures. SJR 112 will allow conservation loans to tenants and businesses. Privately owned utilities already have this authority and are operating highly successful cost-effective conservation loan programs. SJR 112 loans are restricted to conservation improvements which save energy at a cost which is lower than the cost of new electrical

Voter approval of SJR 112 will help keep energy costs down for the customers of publicly owned utilities. Under SJR 112 utilities are required to use private contractors for installations and to buy the devices from private businesses so that the economy will be strengthened, and so there will be no unfair competition.

Publicly owned utilities have used this authority to make conservation loans to owners of homes and apartments very successfully. They have conserved millions of BTUs of energy. With rising energy prices for all utility ratepayers, it is crucial to extend utility conservation to all ratepayers of publicly owned utilities. SJR 112 will make it easier for all ratepayers to conserve energy, and it will ensure that all ratepayers benefit through lower energy costs.

#### Rebuttal of Statement against

SJR 112 will not allow the lending of the state's monies and credit. No tax dollars are involved. Only funds from the sale of electricity can be used for conservation loans.

No public electricity suppliers will be required to make loans. SJR 112 is permissive, not mandatory.

The Legislature has already enacted laws to prevent any possible abuses in the administration of this program. The enabling legislation specifically prohibits conservation investments which are not cost-effective.

#### Voters' Pamphlet Statement Prepared by:

AL WILLIAMS, State Senator; DICK NELSON, State Representative; RAY ISAACSON, State Representative.

Advisory Committee: MAX BENITZ, State Senator; CAROL MONOHON, State Representative; CHARLES ROYER, Mayor, City of Seattle; DOUG SUTHERLAND, Mayor, City of Tacoma; RUTH COFFIN, President, League of Women Voters of Washington.

#### Statement against

SSIR 112 unnecessarily expands our state constitution. Public utilities supplying energy should not lend their moneys and credit to finance private individuals, associations, companies or corporations. Passage of this referendum is certain to lead to lending of the state's moneys and credit for private purposes.

Conservation is an important issue but should not be encouraged without review of its total cost. Private businesses have other ways to finance energy conservation without public utilities becoming involved in lending money. Industrial revenue bonds are already available to meet this need.

SSJR 112 inappropriately permits assistance to private businesses without adequate restrictions. Standards for eligibility are openly expanded and abuse in administering this assistance is possible. Public utility programs financing private and commercial buildings means additional costs ratepayers could bare in the form of higher electric bills.

Moneys will be needed to start commercial lending programs for public utility districts and other public energy suppliers. A charge back to the private recipient is not enough. The cost could be substantial to lend moneys to our state's largest associations, companies and corporations. Some public energy suppliers may be forced to borrow in order to finance their commercial conservation programs.

SSJR 112 is a questionable use of public moneys and credit. Taxes and public funds should be used for public functions and projects. It is unwise to obligate cities, towns, public utility districts and other municipal energy suppliers to finance private energy programs. Not all public energy Representative; CHARLES MOON, State Representative.

suppliers want this burden or favor this referendum. Vote no on SSJR 112.

#### Rebuttal of Statement for

Approval of SSJR 112 is no guarantee energy costs will be kept down for customers of publicly-owned utilities. Conservation programs are expensive and public utilities should not be subsidizing private tenants and businesses.

Our present energy surplus is causing all energy suppliers to re-evaluate their conservation programs. Publicly-owned utilities should not at this time expand their programs beyond financing residential demands. They were not founded to openly lend their moneys and credit. VOTE NO

## MAJOR POLITICAL PARTY CAUCUS AND CONVENTION PROCEDURES

In Washington state, the candidates for most offices which appear on the state general election ballot are nominated at a primary election. The most important exception to this procedure is the nomination of candidates for the positions of President and Vice-President. This information is presented to familiarize Washington voters with the process by which the nominees for President and Vice-President are determined and how Washington residents can participate in that selection process. This section is detachable so that you may keep it after the election for reference.

Delegates to the national nominating conventions of the major political parties from Washington are selected through a system of precinct caucuses, county or legislative district conventions, and a state convention. The first step in this process is the precinct caucus, a neighborhood-level meeting open to all of the members of a particular political party. Precinct caucuses are held in each precinct of the state in the early spring of each presidential year. Individuals are elected from each precinct to attend the legislative district or county convention where the delegates to the state convention are chosen. The delegates to the state convention select the delegates to the national convention at which the presidential and vice-presidential nominees are selected. In addition to the selection of delegates, those persons attending party caucuses and conventions have the opportunity to determine the party platform, vote on resolutions, and meet party candidates for a variety of local, state and national offices.

#### DATES OF PRECINCT CAUCUSES AND CONVENTIONS

Information on the time of all of the caucuses and conventions was not complete at the time this publication was prepared. The following dates were available from the state central committees of the two major political parties:

Precinct caucuses	5
County or Distric	ct convention
State Convention	i I

March 13, 1984 To be determined\* July 13-14, 1984

Republicans

**Democrats**March 13, 1984
April 21 or 28, 1984
June 9-10, 1984, Tacoma

\*These dates are subject to confirmation when the Republican State Committee formally adopts rules for precinct caucuses and county or district conventions, probably in October of this year.

#### RULES AND PROCEDURES

Each political party has the authority under state law to adopt rules to govern the delegate selection process and other party activities which occur in conjunction with the caucuses and conventions. These party rules specify the number of delegates from each precinct to the county or legislative district convention, the number of delegates from each legislative district or county convention to the state convention, and the procedural rules for conducting the caucuses and conventions. The delegate allocation formulas are usually based on population or a combination of population and the number of votes certain candidates for that party received in the precinct, district, or county. A copy of the rules of either party should be available from the state central committee of that party in advance of the time precinct caucuses are held.

#### ADDITIONAL INFORMATION

The dates and locations of all party caucuses and conventions receive advance press coverage and are generally advertised by the parties. Specific questions you have about any aspect of the nominating procedure may be directed to the state central committee of the respective party. They may be able to respond to your inquiry directly or they may refer you to either your precinct committeeperson or your county or district chairperson. The addresses and telephone numbers of the state committees are as follows:

Washington State Republican Party Nine Lake Bellevue Drive, Suite 203 Bellevue, WA 98005 (206) 451-1984 Washington State Democratic Committee 1702 Smith Tower Seattle, WA 98104 (206) 583-0664

## INDEPENDENT CANDIDATE AND MINOR PARTY NOMINATING PROCEDURES

This summary of the procedures governing the nomination of independent and minor party candidates is not meant to be inclusive. Persons interested in being nominated in this manner should consult Chapter 29.24 of the Revised Code of Washington or obtain more detailed information from the office of the Secretary of State, P.O. Box 9000, Legislative Building, Olympia, WA 98504.

#### NOMINATING CONVENTION

Any nomination of a candidate for partisan political office other than by a major political party must be made by a convention held on the last Saturday preceding the filing period. In 1984, this will be July 28. Notice of the intention to hold a nominating convention must be published in a newspaper of general circulation within the county in which the convention is to be held at least ten days before the date of the convention. A number of registered voters equal to one for each 10,000 voters who voted in the jurisdiction for which each nomination is made or twenty-five such voters, whichever number is greater, must attend the nominating convention and sign the nominating petition for the candidates who are nominated.

#### CERTIFICATE OF NOMINATION

The signatures and addresses of the registered voters who attended the convention and a record of the proceedings of the convention must be submitted to the office of the Secretary of State no later than the last day allowed for candidates to file for office. In 1984, this deadline is August 3. Any candidates who are nominated at an independent or minor party convention must file a declaration of candidacy with the Secretary of State and pay the filing fee required for the office sought. (Those candidates unable to pay the filing fee may file an affidavit of indigency.) The names of all of the candidates who have been nominated by convention will be printed on the primary election ballot together with the major party candidates for their respective offices. With the exception of candidates for the offices of President and Vice-President, no candidate may have his or her name printed on the general election ballot unless he or she receives at least one percent of the total votes cast for that office in the partisan primary.

#### **VOTER'S CHECKLIST**

Every Washington voter will vote on three state measures at the state general election on Tuesday, November 8, 1983. The ballot titles for these state measures are reproduced below as a convenience to voters in preparing to go to the polls or cast an absentee ballot. Voters are encouraged to bring any list or sample ballot to the polling place to make voting easier. State law provides that: "Any voter may take with him into the polling place any printed or written memorandum to assist him in marking or preparing his ballot." (RCW 29.51.180)

#### How to Obtain an Absentee Ballot:

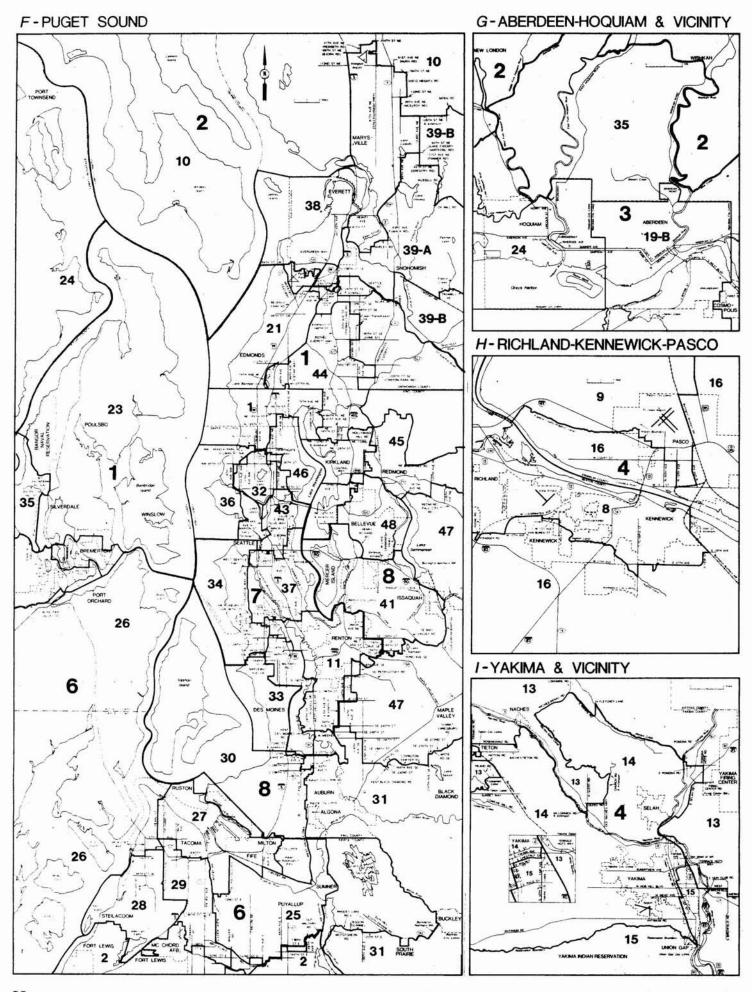

Any registered voter who cannot vote in person may apply to the county auditor or department of elections for an absentee ballot. Any signed request with the necessary information will be honored. For your convenience, an application form is reproduced on the following page. The addresses of the auditors or departments of elections are also listed below. In order to be certain that an absentee ballot request is authentic, the election laws require that the signature on the application be verified by comparison with the signature on the voter's permanent registration record. For this reason if a husband and wife both wish to vote by absentee ballot, both must sign the application form or separate, signed requests should be submitted. In order to be counted, an absentee ballot must be voted and postmarked no later than the day of the election. If you intend to vote an absentee ballot, make your request as soon as possible to allow sufficient time for an exchange of correspondence with the county auditor or department of elections. Absentee ballot requests may be presented in person at the office of the county auditor or department of elections up until the day of the election. No absentee ballots may be issued on the day of the election.
