# Preface

As directed by the State Constitution, the office of the Secretary of State is presenting herewith a copy of all measures which will head the November 6th State Election Ballot.

We urge the voters to carefully study these measures to the end that a vote will be cast either for or against each measure on November 6th. The propositions are voted upon as individual units and the voter can freely mark his preference as each measure is considered.

## Arguments For or Against the Measures

The arguments appearing in this pamphlet either for or against the measures can be filed by any person or organization. However, the law provides that each sponsor must remit sufficient funds to guarantee the cost to the State for printing same. Because of this statutory charge, not all the measures have printed arguments appearing in this pamphlet. In fact, four proposed constitutional amendments have no arguments (either for or against). Two of the measures (H. J. R. No. 22 and Initiative Measure No. 199) have arguments only in their favor. Only Initiative Measure No. 198 has arguments on both sides of the issue.

The office of the Secretary of State may review the arguments submitted as to whether same contain obscene, libelous, scandalous, defamatory or treasonable matter. However, state law provides no authority as to the evaluation of the truth or accuracy of the arguments, either for or against any measure.

Voters should understand that it is only human for the sponsors or opponents of any measure to present their case as forcefully as possible. In some instances the arguments may contain exaggerated statements or conclusions that cannot be fully determined without court interpretation.

If any public spirited citizen or organization of the State of Washington wishes additional copies of this pamphlet—do not hesitate to write to my office at Olympia.

EARL COE, Secretary of State

## YOUR VOTE FOR 198

*is your vote for a traditional American principle—*

### FREEDOM OF CHOICE

Most of us still feel that America is a free country. We believe that individual freedom is important. We are against compulsion. We do not believe that anyone should be compelled to belong to a church, a farm group, a veterans' organization, a union or any other private organization unless he does so of his own free will.

Freedom of choice is the whole principle at stake in Initiative 198. It protects the right of every person to decide for himself whether to join or not to join a union. It eliminates the special privilege, enjoyed by just one class of private citizens, to say to others, "You must join and pay dues to this organization, or your employer will be compelled to fire you."

Initiative 198 affects only those clauses in union contracts which require compulsory membership. It does not prevent 100% voluntary membership. It interferes in absolutely no way with the existing rights of unions to bargain collectively for all employees wherever a majority are members, to strike for increased wages or benefits and to conduct union affairs as the members see fit, without interference of any kind.

Unions which are honestly and competently run for the benefit of members have nothing to fear from Initiative 198. Members themselves will get rid of racketeering, extortion, coercion and control by entrenched cliques—if union membership is voluntary. Compulsory membership protects union officials from protests; free membership protects members from union bosses.

Ask yourself why union officials have brought so much pressure and spent so much money to defeat Initiative 198. Why have so many people feared vindictive retaliation if they were to speak up for it? Fortunately, nobody can prevent you from expressing your convictions at the polls. To protect your freedom, vote for Initiative 198.

Your inquiry, offer of assistance or contribution will be welcome. Address

## ARGUMENT AGAINST INITIATIVE MEASURE NO. 198

### ORGANIZED LABOR IS AGAINST INITIATIVE 198 FOR THESE VITAL REASONS—STUDY THEM! . . . Your Own Welfare Is At Stake!

1. Initiative 198 will give nobody the "right to work"! This misleading title has been used by the sponsors in similar attempts to fool the voters across the country. Similar wording was properly rejected by the Secretary of State and the Attorney General as the legal and official name for Initiative 198. It cannot legally be called the "right to work" initiative.
2. Initiative 198 is actually a "union-busting" instrument to destroy the bargaining power of labor unions. It strikes at the heart of the basic principles of unionism—strength for the individual worker through uniting with his fellows to deal with their common problems in their elected union.
3. Initiative 198 also strikes at the democratic principle of majority rule. (If you voted against a law which the majority voted for, 198's sponsors would say you don't need to obey it.) The Taft-Hartley Law requires a union to represent all workers in a plant, non-members as well as members. It is only fair that the majority of the workers who benefit should also support the union's work.
4. A large majority of workers prefer the union shop: 97% of the workers in 46,000 government-supervised NLRB elections (secret ballot) voted for the union shop. Why should the general public deny them this right through Initiative 198? Aren't the workers themselves the best judges of what works best for them?
5. Existing laws already offer means for protecting members and preventing alleged union malpractices. Initiative 198 adds nothing to correct faults its proponents complain of: It would kill all trade unions while pretending to correct tiny flaws in their operation.
6. Modern unions are the best way to handle industrial-labor relations. Both management and labor prefer union contracts. Yet Initiative 198 forbids the employer to make or renew contracts with his labor group or union! Modern business must have stable labor contracts to meet competition and operate efficiently.
7. The economy of the whole state would be affected, harmfully! Over 50 years of negotiation set the pattern which today gives this state a healthy, stable business economy, high wages, good working conditions, and an unusually high annual per capita income! Housewife, farmer, businessman—all would lose under 198!
8. Today's worker has little power to protect himself, alone. Working for impersonal corporations, he gets job security because he has a strong, healthy union, to bargain for fair wages and a fair deal on hiring and firing. Initiative 198 would only give him the right to work for lower pay, worse conditions, and the chance to fight alone for poorer jobs.
9. Initiative 198 would be costly for all of us, in disrupting our state's economy. Proof? Sixteen other states have defeated this same type of law—Montana voters refused it a place on their ballot in July of 1956. Four states have had the "right to work" laws, and after costly and sad experience, have repealed them—Louisiana, the latest state to repeal (June, 1956), tried "right to work" for two years and found it a bad, expensive experiment. Let's not make their costly mistake! The "right to work" states have the lowest average per capita income in the nation: \$834 in one state compared to the national average of \$1709!
10. Who is behind this so-called "right to work" measure? No well-known state organization or individuals have endorsed it. It has a few wealthy out-of-state backers and dubious "business" organizations, interested in just one thing—destroying our free labor unions! Yet they claim to speak for the working man! Don't be fooled by their sob-sister propaganda!

# ARGUMENT AGAINST INITIATIVE MEASURE NO 198

## OF COURSE IT HASN'T BEEN ENDORSED!

In their Job Research Report No. 41, dated July 19th, the proponents of Initiative 198 say: (quote)

*"Initiative 198 has yet to receive public endorsement by any Democratic or Republican organization; by any statewide elected public official or candidate; by any Congressional incumbent or candidate; by any Catholic, Protestant or Jewish church official; by any Chamber of Commerce, trade association or top industry spokesman in the state of Washington"* (end quote)

### Of course it hasn't had their endorsement!

*Why would* any thinking person who is sincerely interested in our state and its people want to place in jeopardy the economic advantages we enjoy?

*Why would* they want to impair, if not actually destroy, one of the healthiest, soundest, most prosperous state-economies in our nation? We of Washington now have the 10th highest per capita income in America; ours is 15% above the national average! Only 9 states have higher incomes; 38 states are less fortunate than we!

*Why should* any public spirited leader of state, church, business or industry be expected to endorse a foolhardy initiative which threatens the blessings we enjoy? Be guided by the considered judgment of the leaders in all walks of our state life.

# ARGUMENT FOR INITIATIVE MEASURE NO. 199

## VOTE YES

## VOTE YES

Make Washington's Legislature truly representative of all the people.  
**Vote Yes for 199.**

Initiative 199 creates more equal legislative districts. It was drafted by the nonpartisan League of Women Voters of Washington. The Chairman of the Republican State Central Committee and the Chairman of the Democratic State Central Committee appointed representatives to work with members of the drafting committee which framed this measure.

The Constitution requires the State Legislature to change the number of legislative districts or their boundaries after each census in accordance with changes in population in order to keep the number of people represented by each legislator as nearly equal as possible. Since 1901 this has been done only once when the people redistricted by initiative in 1930.

Shifts and changes in the population have occurred in the intervening 25 years. Redistricting is once more long overdue. Each year the inequality of voting power gets worse.

Consider 2 districts in eastern Washington. According to the latest (1950) official census one of them has a population of about 18,000; the other, 80,000. Even more extreme are two districts in King County; one has about 35,000; the other, 130,000. Each district has 1 senator and 2 representatives.

Initiative 199 gives Washington voters a chance to right these wrongs. **A vote Yes for 199** will help make one man's vote worth the same as another. Expert opinion has rated this the fairest and most accurate plan ever proposed for the state.

Initiative 199 carries out the requirements of the State Constitution. It creates districts with approximately the same number of people in them. It takes into account geographical variations, community of interest, and areas of changing population. Initiative 199 counts people and not registered voters. The number of districts is increased from 46 to 49. Each district will elect 1 senator and 2 representatives, except the largest district, which will have 3 representatives.

# VOTE FOR GOOD ROADS IN WASHINGTON

## VOTE FOR HJR 22

### WOULD EXPEDITE CONSTRUCTION OF NEW STATE HIGHWAYS

House Joint Resolution No. 22 would amend the state constitution by giving the Legislature the power to grant the courts the authority to allow state highway construction to start before final settlement with the property owner. This would expedite considerably the construction of a new highway. The people of the state would enjoy the benefits of a modern highway much sooner.

### WOULD PROTECT THE RIGHTS OF PROPERTY OWNERS

Any legislation passed in the future would have to provide that the state pay into court an amount of money which would be held for the use of the property owner.

### MOST STATES ALLOW HIGHWAY CONSTRUCTION TO BEGIN IMMEDIATELY

Forty states have legal provisions allowing highway construction to begin immediately. Washington must keep pace with other states in its program to improve highway services. In this attempt to keep pace, Washington citizens would be seriously handicapped without the protection given by the passage of HJR 22.
