**RFP 23-05 – E-Rate Category 2 Equipment, Managed Services and Support
for the Washington State Library Technology Consortium (LIBTECH)**

AMENDMENT NO. 4

(January 26, 2023)

SUMMARY

This Amendment No. 4 to RFP 23-05:

- Notifies vendors to refrain from performing library site visits in developing cost estimates for their proposals; and
- Revises the current schedule of procurement activities to provide vendors an additional week to prepare and submit proposals, extending the due date for submission of proposals from February 2, 2023 to February 9, 2023

1. NOTICE TO VENDORS REGARDING CONSORTIUM MEMBER LIBRARY SITE VISITS

In order to conduct a fair solicitation process with equal access to information, we ask that vendors refrain from conducting library site visits, either themselves or through a third party working on their behalf, to develop cost estimates for their proposals. Washington State Library staff are unable to be on-site for this activity, and the local libraries and their staff are unprepared to receive vendors or contractors for this purpose.

We appreciate vendors' efforts to obtain and provide the best possible estimates for their proposals, and understand how challenging that can be when there are conditions or circumstances that, if known, would have a bearing on or could improve those estimates. Nevertheless, vendors should use other means to accomplish this during the bidding phase of this process. The apparent successful bidder may conduct site visits and refine its cost projections if necessary during the contracting phase and/or whenever service is added to a new library.
