Know the basics

Vote by mail

Washington state votes by mail.

Ballots are mailed 18 days prior to an election.

Voters must be registered and have their address up-to-date to receive a ballot. New registrations and updates can be submitted online with MyVote, by mail or in person.

Registrations are not by party affiliation.

Elections are administered by each county elections department.

Voter eligibility

Registered voters must be:

A citizen of the United States	Permanent residency or having green card is not the same as being a citizen.
A legal resident of Washington State	A person must establish a residential address at least 30 days before Election Day.
At least 18 years old by Election Day	If a person is currently 17 but will be 18 years old by Election Day, they can register to vote.
Not disqualified from voting due to a court order	Only a Superior Court Judge can declare a person unable to vote due to mental incompetency. Do not assume that a person under a guardianship due to mental incapacity is ineligible to vote.
Not under the Department of Corrections supervision for a Washington felony conviction	A felon's right to vote is restored as long as they are no longer in prison or on community custody (supervision, parole) with the Washington State Department of Corrections (DOC). Once their right to vote is restored, they must re-register in order to vote.

Laws and rules

Anyone may register voters. Volunteers who are not eligible to vote themselves may still register others to voter

Voter registration coordinators may not compensate or reward staff members/volunteers based on the number of voters they register. However, pay or rewards are permitted for time spent registering voters (RCW 29A.84.130).

Rewards, prizes or gifts may not be offered to people in exchange for registering to vote. Promotional gifts, such as buttons or candy, must be given to anyone who asks, regardless of their eligibility, party preference or intention to register to vote.

Partisan materials cannot be handed out if your organization is a 501(c)3 or if you receive state funds.

Return completed registration forms **no later than five days** after you receive them, or before the voter registration deadline (whichever is first). You may return them by mail or in person to your county elections department or the Office of the Secretary of State.

Voter registration information that is public include first name, last name, date of birthday and address.

Dates and deadlines

Plan voter registrations in accordance with the dates and deadlines.

29 days before election day	Deadline for online and mail-in voter registration, address change and other updates
8 days before election day	Deadline for new Washington State voter registration (in person only)

New applications and updates submitted after the deadlines will take effect for the next election.

Best practices

Team up with existing event organizers if there's something going on in your city, town or campus that's sure to draw a crowd.

Don't just ask if people need to register to vote, ask if their address is current. In Washington a person needs to update their voter registration records if they change their residential address, mailing address and/or name.

Contact the State Elections Division for outreach materials, workshops and educational opportunities. Your county elections department is also a great contact for resources and more information.

Voter Registration Forms

Paper form

When using a paper voter registration form, double-check that all the required fields have been completed. Missing information can cause registrations to be delayed or rejected.

1. The residential address must be in Washington State. The residential address determines which candidates and measures will be on the ballot. PO boxes may not be used as a residential address.
2. Include a mailing address if it is different from the residential address. The mailing address is where the ballot will be sent. The mailing address can be anywhere in the world.
3. Verify the person has answered both of these questions.

4. A Washington State driver licence, state ID number or the last 4 digits of their Social Security number. Applicants without these standard IDs may leave this blank but will be asked for alternative ID by their county elections department before the registration is approved.
5. If a voter needs to update their voter registration records, they should include their former registration information so a duplicate registration is not generated.
6. Make sure the voter signs and that the signature is clear.

MyVote, your personalized elections toolkit

MyVote is where you can register to vote, update your address, and research your own customized election information.

Using MyVote to submit a new registration or voter information update requires a valid Washington State driver license or state ID.

Register to vote

1. Go to **www.myvote.wa.gov** and log in. New users will be given the option to “Register to Vote”
2. Complete the Washington State Identification page, and make sure the first name, last name, date of birth and driver license or state ID number match the information exactly as it appears on the driver license or state ID.
3. If the security check words are not legible, you can press the circular arrow button on the right to get a new word.

Check a voter's registration status

1. Log in to www.myvote.wa.gov with first and last name, and date of birth exactly as it appears in the voter registration records. If MyVote is unable to find the person in the system, ask if they registered using a name variation, such as William, Bill or Will. If you still cannot find them, contact the Secretary of State's Elections Division at **(800) 448-4881**.
2. Make sure their residential and mailing addresses are current and their registration status is active.
 - 2.1. If the residential and mailing addresses are not current, click on "update my address". If registration status says inactive, the person should update their address (even if their address hasn't changed), to change their voter registration status to active.

The screenshot shows the MyVote website interface. On the left, under a green circle '1', is the 'log in' section with input fields for 'first name', 'last name', and 'date of birth' (with dropdowns for Month, Day, and Year). A 'continue' button is below. On the right, under a green circle '2', is the 'my voter registration information' section. It features a vertical menu with options: 'my voter registration information', 'my candidates & ballot measures', 'ballot drop boxes & voting centers', 'ballot status', 'elections in which I voted', and 'my districts & elected officials'. A green circle '2.1' highlights the 'ballot status' option. To the right of the menu is a list of registration details: 'personal information', 'registration date', 'registration status', 'county', 'precinct code', 'residential address', 'mailing address', 'county information', and 'ballot delivery method' (with 'Postal Mail' selected). An 'update my address' button is at the bottom right.

Best practices

If a person needs to change their name, MyVote requires a driver license or state ID with the new name. The person must complete a new registration and cancel their previous registration with the county elections department.

If your organization wants to track the number of registrations and updates submitted through MyVote, the State Elections Division can provide a unique URL. Visit www.vote.wa.gov under Civics Education for more information.

Update Address

1. Log in to MyVote and make sure the first name, last name and date of birth match the voter's registration records.
2. Once you locate the voter, click on "update my address."
3. Complete the Washington State Identification page, and ensure the name, last name, date of birth and driver license or state ID match the information exactly as it appears on the driver license or state ID.
