## Initiative Measure No. 1021

## Filed MAR 17 2008 SECRETARY OF STATE

- AN ACT Relating to long-term care services for the elderly and 1 people with disabilities; amending RCW 74.39A.009 and 74.39A.050; 2 reenacting and amending RCW 18.130.040; adding new sections to chapter 3 74.39A RCW; adding a new section to chapter 18.88A RCW; creating new sections; and providing an effective date. 5
- BE IT ENACTED BY THE PEOPLE OF THE STATE OF WASHINGTON: 6
- NEW SECTION. Sec. 1. A new section is added to chapter 74.39A RCW 7 to read as follows: 8
- It is the intent of the people through this initiative to protect 9 the safety of and improve the quality of care to the vulnerable elderly 10 and persons with disabilities. 11
- The people find and declare that current procedures to train and educate long-term care workers and to protect the elderly or persons with disabilities from caregivers with a criminal background are insufficient. The people find and declare that long-term care workers 15 for the elderly or persons with disabilities should have a federal 16 criminal background check and a formal system of education and 17 experiential qualifications leading to a certification test. 18

12

13

The people find that the quality of long-term care services for the 1 elderly and persons with disabilities is dependent upon the competence 2 of the workers who provide those services. To assure and enhance the 3 quality of long-term care services for the elderly and persons with 4 disabilities, the people recognize the need for federal criminal 5 background checks and increased training requirements. 6 establishment should protect the vulnerable elderly and persons with 7 disabilities, bring about a more stabilized workforce, improve the 8 quality of long-term care services, and provide a valuable resource for 9 recruitment into long-term care services for the elderly and persons 10 11 with disabilities.

- (1) The system shall be client-centered and promote privacy, independence, dignity, choice, and a home or home-like environment for consumers consistent with chapter 392, Laws of 1997.
- (2) The goal of the system is continuous quality improvement with the focus on consumer satisfaction and outcomes for consumers. This includes that when conducting licensing or contract inspections, the department shall interview an appropriate percentage of residents, family members, resident case managers, and advocates in addition to interviewing providers and staff.
- (3) Providers should be supported in their efforts to improve quality and address identified problems initially through training, consultation, technical assistance, and case management.
- (4) The emphasis should be on problem prevention both in monitoring and in screening potential providers of service.
- (5) Monitoring should be outcome based and responsive to consumer complaints and based on a clear set of health, quality of care, and safety standards that are easily understandable and have been made available to providers, residents, and other interested parties.
- (6) Prompt and specific enforcement remedies shall also be implemented without delay, pursuant to RCW 74.39A.080, RCW 70.128.160, chapter 18.51 RCW, or chapter 74.42 RCW, for providers found to have delivered care or failed to deliver care resulting in problems that are serious, recurring, or uncorrected, or that create a hazard that is causing or likely to cause death or serious harm to one or more residents. These enforcement remedies may also include, when appropriate, reasonable conditions on a contract or license. In the selection of remedies, the safety, health, and well-being of residents shall be of paramount importance.

- (7) ((To the extent funding is available, all long term care staff directly responsible for the care, supervision, or treatment of vulnerable persons should be screened through background checks in a uniform and timely manner to ensure that they do not have a criminal history that would disqualify them from working with vulnerable persons. Whenever a state conviction record check is required by state law, persons may be employed or engaged as volunteers or independent contractors on a conditional basis according to law and rules adopted by the department.)) All long-term care workers shall be screened through background checks in a uniform and timely manner to ensure that they do not have a criminal history that would disqualify them from working with vulnerable persons.
- (8) No ((provider or staff)) long-term care worker, or prospective ((provider or staff)) long-term care worker, with a stipulated finding of fact, conclusion of law, an agreed order, or finding of fact, conclusion of law, or final order issued by a disciplining authority, a court of law, or entered into a state registry finding him or her guilty of abuse, neglect, exploitation, or abandonment of a minor or a vulnerable adult as defined in chapter 74.34 RCW shall be employed in the care of and have unsupervised access to vulnerable adults.
- (9) The department shall establish, by rule, a state registry which contains identifying information about ((personal)) certified home care aides identified under this chapter who have substantiated findings of abuse, neglect, financial exploitation, or abandonment of a vulnerable adult as defined in RCW 74.34.020. The department shall adopt rules by March 1, 2002, for the implementation of this section based on the recommendations of the community long term care training and education

steering committee established in RCW 74.39A.190. The department shall deny payment to an individual provider or a home care provider who does not complete the training requirements within the time limit specified by the department by rule.

(11) In an effort to improve access to training and education and reduce costs, especially for rural communities, the coordinated system of long term care training and education must include the use of innovative types of learning strategies such as internet resources, videotapes, and distance learning using satellite technology coordinated through community colleges or other entities, as defined by the department.

(12) The department shall create an approval system by March 1, 2002, for those seeking to conduct department approved training. In the rule making process, the department shall adopt rules based on the recommendations of the community long term care training and education steering committee established in RCW 74.39A.190.

 $\frac{(13)}{(13)}$ ) The department shall establish, by rule,  $(\frac{(training_{\tau})}{(training_{\tau})})$  background checks( $(\frac{1}{\tau})$ ) and other quality assurance requirements for  $(\frac{(training_{\tau})}{(training_{\tau})})$  long-term care workers who provide in-home services funded by medicaid personal care as described in RCW 74.09.520, community options program entry system waiver services as described in RCW 74.39A.030, or chore services as described in RCW 74.39A.110 that are equivalent to requirements for individual providers.

(((15) Within existing funds, the department shall design, develop, and implement a long term care training program that is flexible, relevant, and qualifies towards the requirements for a nursing assistant certificate as established under chapter 18.88A RCW. This subsection does not require completion of the nursing assistant certificate training program by providers or their staff. The long-term care teaching curriculum must consist of a fundamental module, or modules, and a range of other available relevant training modules that provide the caregiver with appropriate options that assist in meeting the resident's care needs. Some of the training modules may include, but are not limited to, specific training on the special care needs of persons with developmental disabilities, dementia, mental illness, and

the care needs of the elderly. No less than one training module must be dedicated to workplace violence prevention. The nursing care quality assurance commission shall work together with the department to develop the curriculum modules. The nursing care quality assurance commission shall direct the nursing assistant training programs to accept some or all of the skills and competencies from the curriculum modules towards meeting the requirements for a nursing assistant certificate as defined in chapter 18.88A RCW. A process may be developed to test persons completing modules from a caregiver's class to verify that they have the transferable skills and competencies for entry into a nursing assistant training program. The department may review whether facilities can develop their own related long term care training programs. The department may develop a review process for determining what previous experience and training may be used to waive some or all of the mandatory training.
