Fundraiser's Comments Regarding Financial Information (Optional):

The focus of Gordon & Schwenkmeyer's telemarketing donor development program is twofold: first, to identify and create new contributors to sustain and help an organization grow; second, to use the telephone as a valuable public education outreach tool to inform people about the organization's mission and programs. As with other small donor development programs, most telemarketing donor prospecting efforts generally yield very little net income. But without a constant infusion of new contributors, an organization cannot grow or expand its programs. Gordon & Schwenkmeyer's program does not require any direct funding from our clients. We realize that most of our clients have very limited funds to invest in donor development programs. At no time do we ask our clients for direct payment of the program's expenses, rather, the expenses are paid for by the returns generated from the calling and any deficit incurred by the donor prospecting program is financed, interest-free, by Gordon & Schwenkmeyer and repaid from the net income generated by resoliciting the newly developed donors. Once the initial program deficit has been repaid, all net income is distributed directly to our client.

Fundraiser's Comments Regarding Financial Information (Optional):

The primary focus of the registration form required by the Charities Division of the Secretary of State's Office is to report the amount of monies the client/charity retains; it does not provide an area to account for any program costs the client/charity has paid for throughout the year. Because of this, ALL program expenses are included with the professional fundraiser's revenue, because it was not "retained" by the client/charity. It is very misleading as it appears that the professional fundraiser retains more of the money than the client/charity. It is important to note that the expenses included with Support Services' revenue are not profit. Support Services, Incorporated only retains approximately 11% of all revenue generated on behalf of the charitable organization it represents.

Charities Client(s) For The Year Reported:

Greatergood.org, Inc.

Fundraiser's Comments Regarding Financial Information (Optional):

In Fiscal Year 2009, CharityUSA and The GreaterGood Network of websites generated a total of \$3,072,652 for charity. This was 5.4 times our reported profit. The total amount of contributions received by CharityUSA.com, LLC from the public in FY 2009 was \$1,288,531; 100% was given to charity. The remaining \$1,784,121 generated for charity in FY 2009 was from sales of products and advertising.

The GreaterGood Network of websites, owned and operated by CharityUSA.com, LLC offers the public three unique ways to generate money for charity:

Advertising:

With each daily click on our network of websites, visitors are shown sponsor advertising. We give one hundred percent (100%) of the collected advertising fees from sponsor advertising to charity through the non-profit, tax-exempt organization GreaterGood.org. No fees are taken out of the charitable payments for administrative costs.

Direct Donations:

Supporters can also contribute directly to charity by purchasing Gifts That Give More through our store. These direct donations contribute 100% of the amount paid by donors to specific charitable programs throughout the world. Again, no fees are taken out of the charitable payments for administrative costs.

Shopping:

Supporters can also contribute to charity by purchasing products from our store, including jewelry, apparel and gifts. We pay our charity partners 3-30% of the purchase price of every item sold in our store. The remaining funds generated through the sale of merchandise support the day-to-day operations of CharityUSA, including the original purchase of goods to be sold.

CharityUSA.com, LLC is also one of the largest US importers of fair-trade, artisan products made by rural women from areas of conflict and poverty. We sell products from more than 40 countries and work with charity partners to directly import custom jewelry and other products from artisan cooperatives all over the world. We believe we have a responsibility to provide support for local economies and trade, in addition to aid. In 2009, buyers from CharityUSA.com LLC visited China, Peru, Guatemala, Nepal, Mexico, Haiti, Brazil, Columbia, Africa and Afghanistan, in addition to sourcing product made in the United States. We are a mission-driven company, and it is our belief that selling artisan products made by rural women is one of the most important things we do to reduce intergenerational poverty, and has been correlated with improved education for children, reduced incidence of disease, and increased family and community incomes.

Planned Parenthood Action Fund, Inc.

Save the Children Federation, Inc.

Fundraiser's Comments Regarding Financial Information (Optional):

The American Civil Liberties Union, Inc. (ACLU) hired Grassroots Campaigns (GCI) to conduct their door-to-door prospecting campaigns to identify and recruit new members in 2008, and the results of this effort are summarized in this financial report. As you can imagine with any prospecting campaign, a lot of money and resources had to be expended to search for and identify donors who were supportive, and the expense of these prospecting campaigns exceeded the revenues raised as is often the case with prospecting efforts undertaken by any charity. However please note that by educating the public about the erosion of privacy rights and environmental protection at the state and federal level, and getting Washington State residents to take action on this and other issues, this door to door canvassing engaged in valuable programmatic activity to help pass laws and implement policies to protect civil liberties and the environment. Therefore the donations of citizens collected through this door canvassing effort has already gone directly to pay for programmatic work, but the format of this financial report did not allow us to numerically represent this important aspect of the fundraising campaign. In addition ACLU has been doing follow-up solicitation with the donors who were identified during this door canvassing effort, and GCI anticipates that over time this will more than make up for whatever expenses of the canvassing campaign were not covered by revenues - raising additional resources over time for even more programmatic work. Finally a number of donors signed up by GCI have chosen to spread their support over time through monthly donations, the long-term ongoing value of which has not yet been captured in the financial report submitted to the state of Washington, so this financial report undercounts true revenues generated from the 2008 canvassing effort.

Dec 31, 2008	\$526,406	\$-58,685

Charities Client(s) For The Year Reported:

Save the Children Federation, Inc.

Fundraiser's Comments Regarding Financial Information (Optional):

The amount reported for Contributions includes both single donations and the first installment of monthly donations. Therefore, the total raised is larger. The amount received by the charity from subsequent installments of monthly donations of course fluctuates. Amounts of subsequent monthly donations aren't available to our organization because these amounts are tracked by the charity, not by Public Outreach Fundraising, LLC.

The Net to Charity question is ambiguous when applied to our fundraising model. Neither our fee nor costs are subtracted from the donations raised, but are paid upfront before the campaign begins. All donations raised (100%) are remitted to the charity. In the interests of fullest disclosure, however, our fundraising fee plus costs was \$585,091.

It appears superficially from this that the campaign ran at a loss for the charity. However, when subsequent monthly donations for the charity are included under Contributions, the "break even" point for the charity occurred between two and three months after the end of the campaign. Their income per monthly donor is expected to rise for up to five years thereafter.

<u>Year-End:</u>	<u>Total Contributions:</u>	<u>Net to Charity Client(s):</u>
Dec 31, 2008	\$317,839	\$-75,881

Charities Client(s) For The Year Reported:

Children International

Fundraiser's Comments Regarding Financial Information (Optional):

DialogueDirect, Inc. does not collect or have access to any donated funds as those who agree to sponsor send funds directly to the charities we work for. Sponsors obtained through the fundraising efforts of DialogueDirect are monthly sponsors, giving a minimum of \$22 per month and intend to support (but are not obligated to support) the charity with monthly gifts for at least 2 years. While some donors will sponsor for less than 2 years, many donors will support the charity with monthly donations well beyond 2 years. Therefore, the amount of donations received by the charities for DialogueDirect, Inc. fundraising efforts in 2008 will continue to grow over the years.

Children International sponsors agree to sponsor an individual child with ongoing monthly contributions. Many of our sponsors continue to contribute for many years. Due this ongoing commitment, it is necessary when looking at the value of a campaign to look at the income generated over a number of years. Projected contributions of the sponsors acquired through DialogueDirect over eight years are on file with the Secretary of State's Charities Program.

Note A:

The percentage of funds retained by charity clients is based on the most current financial information provided by the Commercial Fundraisers listed above. These percentages reflect the overall amount of funds received or retained by the client charities after all fundraising costs have been deducted from the total value of contributions received on behalf of the charity by the Commercial Fundraiser or by the charity client. The difference between Total Contributions and Net to Charity Client(s) may include fundraising expenses other than fees paid to a Commercial Fundraiser. It should also be noted that these figures do not necessarily indicate the specific percentage of funds allocated by a given charity to its charitable purpose. In some instances, charities may be using a combination of direct fundraising and a Commercial Fundraiser; others may be using several different Commercial Fundraisers, whose yield to the charity may vary.

Note B:

The charity clients listed are based on registration information submitted by the Commercial Fundraiser and/or the Charitable Organization. In some instances, the Commercial Fundraiser and Charitable Organization may no longer have a contractual relationship to conduct fundraising activities in Washington State.

Note C:

The financial information provided by the Commercial Fundraisers listed above is aggregate and may reflect activities in Washington State, nationally, or a combination thereof.

Note D:

Financial information is not available for some of the Commercial Fundraisers listed. If the financial information displayed is blank, contains zeros, or is outdated, it is possible that the organization is newly registered, did not solicit contributions in Washington State during the fiscal/accounting year reported, or has re-registered after a period of inactivity. Please contact the Charities Program for more specific information.
