

# Initiative Measure No. 1632, filed March 15, 2018

10 words. FISH AND WILDLIFE COMMISSION SELECTION CHOICE MUST REFLECT MAJORITY RULE

30 words THE FOUNDING FATHERS OF AMERICA CHOSE MAJORITY RULE AS THE FORM OF GOVERNMENT DESIRED. THE SELECTION OF FISH AND WILDLIFE COMMISSIONERS CREATES GOVERNMENT BY MINORITY REPRESENTATION AND MUST END.

The above reflect the corrections made by Kenneth Douglas Morrow in his petition seeking to change how Fish and Wildlife Commissioners are chosen in the State of Washington. My apologies for my bad choice of words previously. How they are now chosen from districts does represent an attempt to give representation to different areas of the state, but it in no way represents the will of the people, the majority.

Please feel free to word my petition in a better way if so desired

A perfect example is the last commissioner appointed. He is a Fly Fishing guide from Eastern Washington who makes his living guiding Fly Fishing. He is the exact opposite of representing the majority of voters who will never touch a fly pole. His vested interest is in the Fly Fishing community and not the public's. And yes, they are organized.
