Mr. Peter W. Hildebrandt
Assistant Director
Office of Air Quality Control
Washington State Department of Health
1510 Smith Tower
Seattle, Washington. 98104

Dear Mr. Hildebrandt:

In spite of your efforts to get the Avey Lumber mill to reduce emissions that I reported to you in October 1969 and again last April 13th the condition is getting worse. They don't seem to give a damn.

As you can see by the enclosed sample my complaint is about unburned fall-out not ash. Will you please take the necessary steps to compel the mill to fire their burner properly or install a new one that will eliminate this disagreeable nuisance.

Thank you for whatever you are able to do about this.

Sincerely yours,

Carl Norlin
