

Records Management Advice

Issued: October 2024 (Originally Issued: May 2020)

Using Records Retention Schedules:

How Long Do COVID-19 Contact Tracing Logs and Screening Records Need to Be Kept?

Purpose: Provide guidance to state and local agencies on the required retention for records of COVID-19 logs and screenings administered to employees and visitors by the agency to ensure a safe working environment and to assist in contact tracing.

In response to the COVID-19 pandemic, many agencies have screened employees and visitors for signs of infection and/or created logs to assist with any necessary contact tracing. The most common screening methods agencies have implemented are temperature tests and surveys asking about symptoms and potential exposures.

Retain until no longer needed for agency business
