

Using Records Retention Schedules: Student Cumulative Folders vs. Official Student Records

Purpose: Provide guidance to K-12 public schools as to which specific types of records are to be retained as part of the Official Student Record (DAN SD51-05F-10) (with its much longer retention) and which can be destroyed much sooner as part of the Student Cumulative Folder (DAN SD51-05F-07).

Due to the large difference in retention, it is important to pay attention when working out which student records need to be kept for 100 years versus those that can be destroyed 3 years after the student graduates/withdraws.

What Records are Appropriate for the Student Cumulative Folder?	What Records Must Be Retained as Part of the Official Student Record?
