

## This schedule applies to: Utility Service Providers

#### Scope of records retention schedule

This records retention schedule authorizes the destruction/transfer of public records documenting the unique functions and activities of local government agencies that provide utility services (power generation/distribution, water, sewer, irrigation water, and solid waste management, surface water drainage, etc.). It is to be used in conjunction with the *Local Government Common Records Retention Schedule (CORE)*, which can be found at: <a href="http://www.sos.wa.gov/archives/RecordsRetentionSchedules.aspx">http://www.sos.wa.gov/archives/RecordsRetentionSchedules.aspx</a>.

#### Disposition of public records

Public records covered by records series within this records retention schedule must be retained for the minimum retention period as specified in this schedule. Washington State Archives strongly recommends the disposition of public records at the end of their minimum retention period for the efficient and effective management of local resources.

Public records designated as Archival (Permanent Retention) or Non-Archival (with a retention period of "Life of the Agency" or "Permanent") must not be destroyed. Records designated as Archival (Appraisal Required) must be appraised by the Washington State Archives before disposition. Public records must not be destroyed if they are subject to ongoing or reasonably anticipated litigation. Such public records must be managed in accordance with the agency's policies and procedures for legal holds. Public records must not be destroyed if they are subject to an existing public records request in accordance with chapter 42.56 RCW. Such public records must be managed in accordance with the agency's policies and procedures for public records requests.

In addition to the minimum retention requirements specified in this schedule, there may be additional (longer) retention requirements mandated by federal, state and/or local statute, grant agreement, and/or other contractual obligations.

#### Revocation of previously issued records retention schedules

All previously approved disposition authorities for records that are covered by this retention schedule are revoked, including those listed in all general and agency unique retention schedules. Local government agencies should take measures to ensure that the retention and disposition of public records is in accordance with current approved records retention schedules.

#### Authority

This records retention schedule was approved by the Local Records Committee in accordance with RCW 40.14.070 on November 29, 2012.

## **REVISION HISTORY**

Version	Date of Approval	Extent of Revision	
Initial	1981	First public utilities retention schedule.	
1.0	December 2, 2010	All records series relating to the provision of public utilities were transferred from the <i>Local Government General Records Retention Schedule</i> ( <i>LGGRRS</i> ) <i>Ver. 5.1.</i> Records series prefix changed from GS to UT, and all notes about previous revisions and corrections removed. Some titles were shortened by removing functions/activities ("UTILITIES ACCOUNTING", "ELECTRIC POWER GENERATION", etc.).  Electric Utilities section was restructured, and three new records series added: two to Power Generation, and one to Power Distribution. An additional series covering critical cyber assets was added, and additional series were revised. (See Revision Guide.)	
1.1	April 26, 2012	Added new series related to nuclear power utilities. Updated format and disposition actions for consistency. (No Revision Guide issued.)	
1.2	November 29, 2012	Solid Waste Management added; records series imported from demolished Local Government General Records Retention Schedule (LGGRRS) Version 5.2. New series added: Utility Meter Readings – For Energy Planning and/or Conservation Education (UT2012-050). UT55-05B-18 revised. 10 series covered by CORE discontinued. (See Revision Guide.)
