

# WORLD WAR I

# *Soldiers Remembered*

PRESENTED BY THE WASHINGTON STATE LIBRARY AND WASHINGTON STATE ARCHIVES

## **Honoring Heroes from World War I**

During World War I, the battlefields of Europe left their mark on one generation. For the first time, the trials and triumphs of Washington's soldiers are revealed through letters, records, and photographs. This special collection from the Spokane Public Library and the Office of the Secretary of State, provides a glimpse into the lives of those enlisted in Spokane County. This WWI project will expand and include additional WWI serviceman cards as they are indexed, the three volume set of *Soldiers of the Great War* and other resources as they are located. Our special thanks to all those who've contributed to capturing this segment of America's history.

In order to view the resources presented, including maps and photographs, you must download the DJVU plugin. This free software is available from Lizard Technologies.
